

The DFG project *Lateinische Kirche im Sondermodus?* aims at the edition of the papal epistles *ad Tartaros* betrayed in the series of the Vatican and Avignon registers for the years 1307-1346 according to modern editorial criteria.

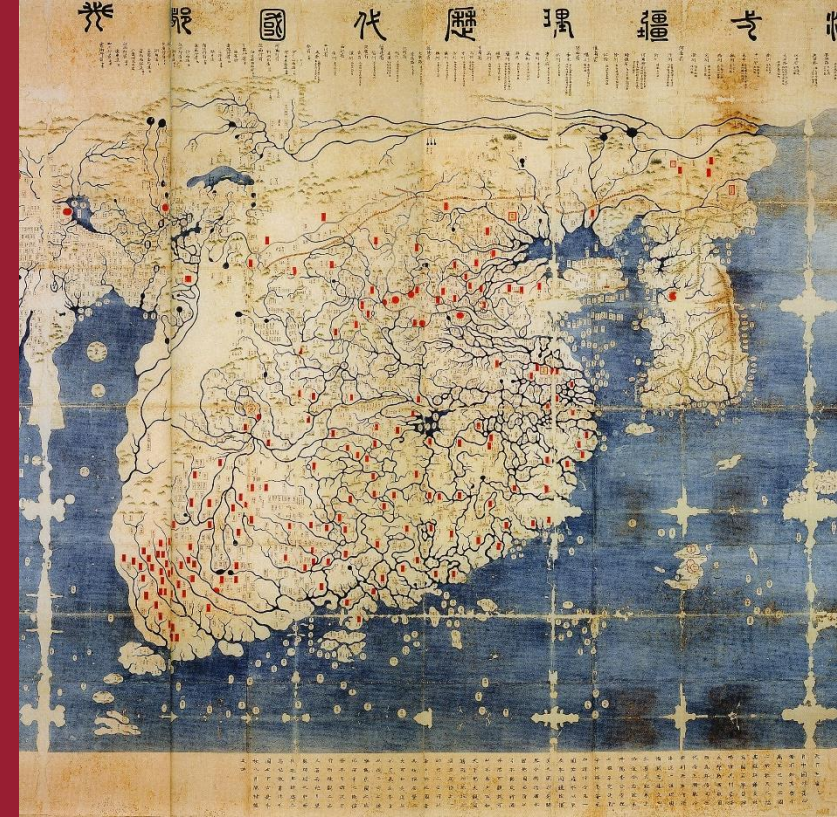

The conference intends to investigate the phase of relations between Rome and the Far East which is to be placed in the first half of the 14th century, a phase that went beyond the first evangelisation of the Mongols and aimed at the institutionalisation of these relations.

The international conference *The papacy and the Mongolian Reigns in the 13th and 14th Centuries* will take place simultaneously in Wuppertal for the European participants and in Beijing for the participants from China, connected via zoom and will be held, due to the time difference, on the mornings of 18, 19 and 20 July 2023.
